

The Breet *Handbook*

Ha finally! 🎉

A **crypto** company
that's **not boring**.

We turn your crypto into real-life burgers, rent money, mobile data, online shopping sprees, you name it. In short...

“

**we make
crypto
spendable.**

What does this even mean? You'll get it, but let's not jump the gun. First, get to know us.

Who the hell are we? 🤔

We're Breet Gang... and yes, we're kind of a big deal in Africa! At least, we believe so 😎

Picture this: It's 2021. It's February. On a Thursday. At 3:14AM. And a bunch of sleep-deprived dudes got together and said, *"Hey, why is crypto so complicated? Let's fix that!"*

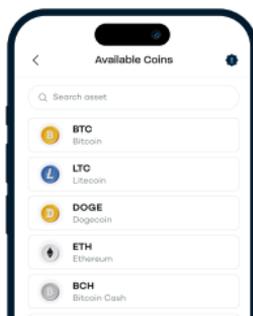

Fast forward to today, and we're Africa's go-to crypto exchange, making digital currencies as easy as sending a WhatsApp sticker 🚀

And what makes us different? We don't just build technology; we build trust, vibe, and occasionally, we build bridges that take you from crypto island to cash island! But seriously, we're here to revolutionise..... tah! it's getting boring, let's stop here.

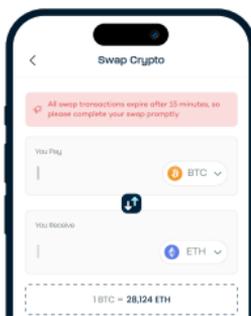

And what do we do?

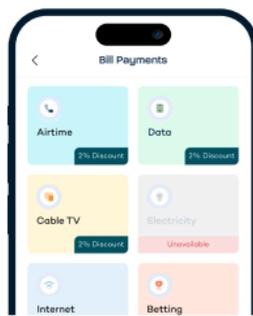

We? Nothing, we're just having fun.
Oh by "we", you mean "the product"?
Ha... okay. Here you go:

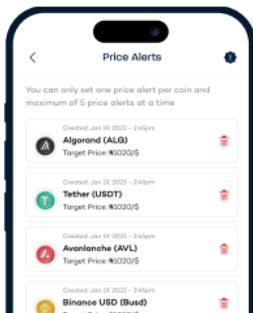

Sell Crypto

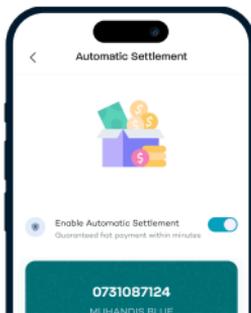

Swap Crypto

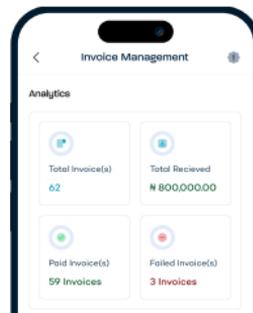

Pay Bills with Crypto

Price Alerts & Market Insights

Automatic Settlement

Business Crypto Invoice

And what don't we do? 🤖🙄

We don't do crypto custody.

In other words, **we don't keep your crypto.**

Unlike exchanges that hold your crypto (and occasionally lose it, oooops 😊), we don't do custody.

Why? Because we believe smart people shouldn't keep their crypto with centralised custodians. That's like asking a stranger to hold your cash while you go swimming.

Your crypto, your control. We just help you use it when you need to.

What makes us special?

Us? We're cute, so we look good on camera.

Oh sorry, you mean the product. Here you go:

Speed 🚀

The time it takes to carry out a transaction on Breet is shorter than the time it took you to read this. Even if you're that guy that calls himself the fastest reader alive.

No P2P Drama 🙅

No "please sir, have you sent the money?" conversations with strangers on the internet.

Great Rates 😊

We could explain our rate calculators, but instead, just know: you get more money. That's the important part.

Security & Privacy 🛡️

No third-party wahala – just smooth, direct transactions.

24/7 Customer Support

Sleep or wake, we got you covered - 'cos we don't sleep.

“

We were supposed to
add a strong motivational
company quote here.

**But we'd rather eat
grass.**

Mama Grace, Market Vendor

Someone paid me with this beatkoyin thing. I had no idea what it was, still have no idea what it is, but Breet turned it into actual money I could use. Juju!

11:56 AM

Femi, Consultant

I still think crypto is a scam, but my client insisted on paying with it. At least Breet let me convert it to real money without the headache of dealing with the crypto at all.

The Breet Team & Culture

We take crypto very seriously, but not ourselves - The only suit you'll find in our office is this emoji → 🦋

We listen to our users – seriously, we actually do - "That feature you requested yesterday? Yeah, we built it while you were sleeping.

We like to keep things simple - If we can't explain it to Aunty Bisi, we rebuild it.

We like to have fun - Once a month, we do a memes-only day where all we do all day is send memes.

And we love to live life.
Because... YOLO.

Breet Cares

Through our “Breet Cares” initiative, we give a portion of our revenue back to society. Yeah... call us Mr Beast.

Why? Because (1) it's cool not to be greedy corporate overlords, and (2) today's struggling student with our free laptop might create tomorrow's killer app for Breet. We're playing the long game here.

We make money. We share money.

You should do the same 🤔
